Environmental Policy

The Wheel Specialist acknowledges that it has a duty to the environment that goes beyond the usual legal and regulatory requirements. We are committed to reducing our environmental impact where possible and embracing new opportunities that are considered to be environmentally positive where they have a beneficial place in the business.

All employees of The Wheel Specialist (and their Franchise's respective companies) are expected to follow environmental processes and procedures that are put in place. Franchisees & Employees must comply with all statutes, by-laws and other legal and environmental requirements. Each branch of The Wheel Specialist will maintain all licences, consents and approvals of any kind that may be required and comply with company instructions concerning the procedures to be put in place to ensure compliance with legal requirements.

Commitments

- Consult with independent experts on matters relating to health and safety, and environmental matters. Work with the national consultants appointed throughout the network.
- Work with suppliers to better products we use to be more environmentally friendly.
- Assess and develop our processes so that they are optimised to deliver maximum performance whilst minimising their effect on the environment.

Additional Practices

- We will minimise the amount of paper used throughout the business.
- We will keep any packaging to reasonable levels.
- We will encourage the use of recycling services.
- We will seek to reduce the amount of energy used where possible.
- Lights and electrical equipment will be switched off, where it is not necessary for it to be switched on.
- We will favour on the side of more environmentally friendly and efficient products where there is an equal benefit and cost.
- We will promote the use of alternatives to unnecessary travel arrangements such as phone and e-mail.
- We will cater to and make additional efforts, within our power, to those using public transport or cycles.
- We will only use licensed and appropriate third parties to dispose of any waste products.
